

Preparation for your surgery

If you are preparing for anorectal surgery, such as hemorrhoidectomy, procedure for prolapsed hemorrhoids, any surgery for fistula or fissure, or any other anorectal procedure there are a few things that you can have ready at your home for your postoperative care.

- Motrin Advil or ibuprofen
- Benefiber, Metamucil, or other fiber supplement
- Colace
- Milk of magnesia or Miralax
- 4X4 gauze pads and/or feminine pads
